Medical Education with Boehringer Ingelheim

Getting it right: Can innovation in inhaler design help our patients manage their inhalers and airways disease better?

We are delighted to welcome you to this symposium to explore how recent inhaler design innovations can translate into enhanced handling and convenience for patients with COPD. Join us as we discuss the importance of choosing the inhaler best suited to each patient in order to optimize treatment outcomes. We encourage your active participation throughout this symposium and look forward to an informative session.

TIME	PRESENTATION	SPEAKER
12:15–12:20	Welcome and introduction	Michael Dreher
12:20–12:50	Respimat® re-usable: More than 10 years of patient-centred design innovation	Felix Weiland
12:50–13:20	Improving patient experience with inhalers: Does inhaler choice make a difference?	Michael Dreher
13:20–13:40	Q&A	All, moderated by Michael Dreher
13:40–13:45	Closing comments	Felix Weiland
